About Us

At Nordica Landscape Design Ltd. we provide the highest quality Design, Installation and Maintenance services to the Langley, Surrey and White Rock areas from our home base in sunny White Rock.

Leigh Nelsen is the owner/designer of Nordica Landscape Design Ltd. She received her horticultural training at Kwantlen Polytechnic University's Landscape Design and Installation Diploma Program.

Leigh's passion is finding just the right stone for your walkway or retaining wall, and the perfect bench or arbour to compliment your garden space. Putting the right plants in the right place is a practice that we hold dear and we are continually searching out new and interesting plants to provide you with year-round colour interest.

We look forward to working with you and making your dream garden a reality!

Leigh

Our Services and the Design Process

At Nordica we believe in providing our clients with innovative and creative designs, timely installations, and dependable maintenance services. We will do our utmost to tailor our services to suit your individual requirements and of course your budget.

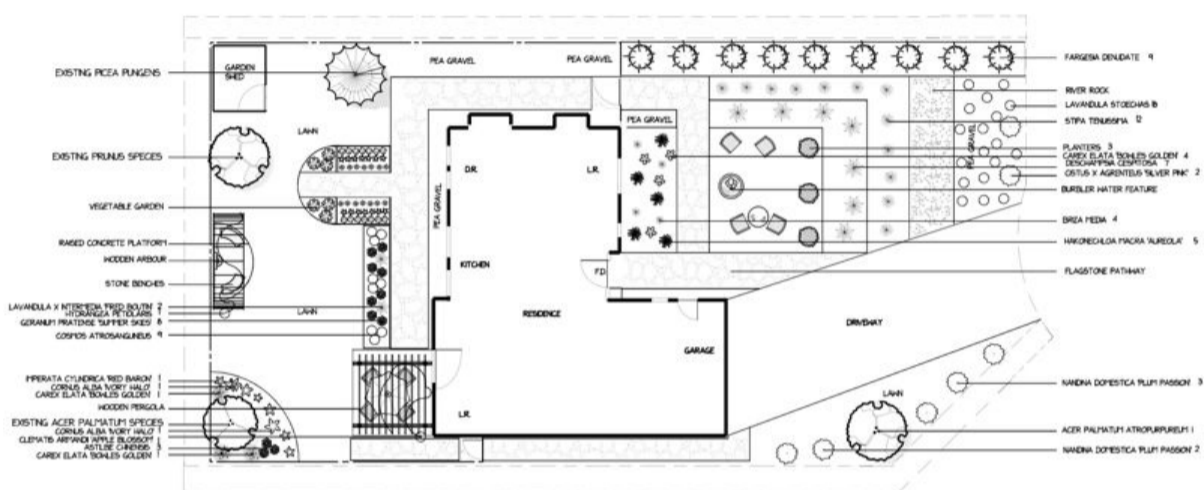

Consultation

Our consultation process allows for discussion of your general needs and design ideas for your garden space. After the consultation, a deposit will secure our moving forward with a site plan of your space and a Concept Plan outlining ideas discussed.

Concept Plan

The Concept Plan is an overview of your desires and practical needs in keeping with your home's architecture and style. This plan is the outline with which we will set out the flow of the garden including key elements such as focal points, planting beds, water features and whatever else you may have in mind. The Concept Plan will allow you the client to envision your new space.

PLANTING PLAN

Planting Plan

Once the Concept Plan is approved, the Planting Plan process begins. This plan will be the blueprint for your new landscape and includes a detailed plant list, specifications and construction details for any hard features (ponds, walkways, retaining walls etc.).

Installation

Installation is carried out in a timely and efficient manner by Nordica Landscape Design or if you choose, by you the homeowner.

Aftercare

Follow up site visits are included for the first few months to ensure the plant health of your newly installed garden.

Maintenance

We are pleased to now provide maintenance services to our list! From tree and shrub pruning to weeding, we will keep your landscape in top condition.

What We Can Do For You

- On-going maintenance services
- Design, installation, makeovers, planting plans
- Incorporation of new plantings into your existing plants
- Landscape renovations for small to large areas - from partial to complete
- Front yard makeovers to boost your home's curb appeal
